

PURPOSE

What is the biggest purpose behind your idea?
(a highly aspirational tagline that tries to solve a global challenge)

- 1) Helping in ending the stigma with free or low-cost ways and with privacy.
- 2) Educating people about mental health (and mental illness).

SOCIAL IMPACT

What positive impact does your idea have on society?

- It will help in educating people about mental health and mental illness.
- It will help those who are suffering from psychiatric disturbances in healing and enjoying their lives without having that fear of being "different".

ENVIRONMENTAL IMPACT

What positive impact does your idea have on the environment?

When someone is suffering from psychiatric disturbances and do not treat it, that may lead to unemployment which may cause poverty and others so this can affect our environment.

And since environment affects our mental health, if people are being educated about mental health, they will realize how much it is important to keep the environment clean.

PEOPLE

Who will benefit from your idea?

People who suffer from psychiatric disturbances or not sure yet whether they suffer from something or not/ people who are shy or can not afford going to psychiatrists, people who want to be educated about mental health.

MOONSHOT

Describe your idea in 3 sentences!

- A psychiatric app.
- provides a free test to know whether you have a psychiatric disturbance or not.
- provides a safe and secured platform which contains (group therapies, events, booking a psychiatrist, virtual friend, and videos/quotes to raise awareness and motivation)

BREAKTHROUGH TECHNOLOGY

Which technologies help you realize your idea?

Software, software development and AI

FINANCIAL IMPACT

How do you make sure your idea is financially sustainable?

we collect a percentage from every patient who booked a psychiatrist from our app, we also accept donations, our app will contain ads and pro features, and we will make some paid events.
