We are Oppiminen, and we know that Learning is not the same for everyone. There are in fact many different learning styles, we were inspired by a Finnish School that used the system of identifying their student's Learning styles, to personalise their activities. We wanted to provide this opportunity to everyone. Above we have linked the crucial study that showed us the opportunity this can give.

We are excited you want to join our journey, begin by taking our short quiz that will identify your learning style. Next sign up to our service for £3 per month, where we will give you notes templates, social networking and revision techniques, as well as learning resources, all based on You!

Welcome To The Quiz!

Before we start, we want to say there are many mini-type of learners, but we will be identifying your main one today. Please answer truthfully, and here are the possible options you have:

Visual

Audio

Kinaesthetic

1. What Type of Lessons do you like the Most?

- Video Lessons OR Lessons with resources attached to independently work on
- Explorative Essays
- Group Projects
- Lecture Style (Teacher Talks From the Front)
- Other

2. How do you Like Learning New Information?

- Discussing with friends
- Watching Videos Online
- Reading Books and Articles
- Going To Museums or Physical Places
- Other

3. What Were Your Experiences with Art?

- Loved It, but I was never good at It.
- I hated Art, because I was never good at It.

4. How Hard is it for you to Make Small Talk?

- It is easy for me, I understand how and what to say.
- I hate talking to new people, so rarely engage in any

**Talia Loomana**

Hey Guys! I am currently struggling in preparing for my GCSE Biology Mock in a few days! I just can't get how Kidney Dialysis Works! Can anyone help me?!? Thank You 🙏

**Maya Thomas**

Hey Talia! I really like physicsandmathtutor, they have some great notes, if you are looking for some games or museums to go to, the Science Museum has a great extension right now, about everything kidneys, so I would recommend stopping by! On that note, does anyone have any notes for Computer Science Pseudocode for AQA?

**James White**

Here are my notes, hope they help!

**About**

**Teaching guide: Pseudo-code**

The pseudo-code described below is provided to assist students preparing for their AQA GCSE Computer Science examination (8125).

In all assessment material, AQA will use a consistent style of pseudo-code shown. This will ensure that, given sufficient preparation, candidates will understand the syntax of the pseudo-code used. It is not the intention that candidates should use this style of pseudo-code in their own work (NSA or written assessments), although they are free to do so. The only direction to candidates when answering questions or describing algorithms in pseudo-code is that their code is clear and consistent.

This document may be updated as required and the latest version will always be available on our website. Updates will not be made mid-year unless an error is documented that must be corrected. If this happens candidates will be notified of the changes. Ordinary updates will be made over the summer period with the new version for the following 12 months posted on our website at the start of the academic year, if any updates were made.

The document is not confidential and can be freely shared with students.

### Tips To Remember:

- Try Chewing Gum or Sweets to recall physical movements with specific notes
- Create Flashcards with questions on them, this will make sure you can answer questions
- Listen To Music, this will allow you to remember specific details at specific moments
- Try Mnemonic Devices, these fun rhymes will allow you to remember better, because they encourage interesting sounds and word play
- Teach Others, once you understand something try to logically explain to someone else the topic

### Most

### Importantly:

Take frequent breaks, study for 30 mins, then take a 10 min break!

## Note Taking Templates:

Key Info Note Taking

Flashcards Notes

Outline Note Taking

Cornell Note Taking

### The Types Of a Note Taking for Kinaesthetic Learners:

- **Key Information Note Taking:** Seemingly random information placed at the top, will remind you of some key details that allow the jogging of the memory
- **Flashcards Notes:** Flashcards give you specific questions, and the physical activity is useful
- **Outline Note Taking:** This will help you take specific information, and block it into groups, which will allow you to focus on the important sections
- **Cornell Note Taking:** The three sections, allow you to control the types of information you write, the Key words and summary sections allow you to associate key words with key pieces of information.

Try All Of Them and Then Choose Your Favourite 🍌
