PURPOSE
What is the biggest purpose behind your idea?
(a highly aspirational tagline that tries to solve a global challenge)

Our biggest purposes behind our idea are breaking the ices between people and new future-uncertain technologies, helping to recycle the waste materials to generate clean energy for building a better future, and collecting the waste materials to stop polluting the nature and damaging the natural life in all over the World.

SOCIAL IMPACT
What positive impact does your idea have on society?

Our project encourages people to use the developing technologies like blockchain technology and it also encourages people to recycle their waste materials to create a better future

ENVIRONMENTAL IMPACT
What positive impact does your idea have on the environment?

Our project helps to collect the waste materials to stop polluting nature and the beings living in it. It helps to recycle the waste materials that are collected to generate clean and safe energy to decrease the using percentage of fossil fuels.

PEOPLE
Who will benefit from your idea?

All the people who can use and trade cryptocurrencies

MOONSHOT
Describe your idea in 3 sentences!

We are aiming to build a business system containing a machine which people throw their waste materials and earn some cryptocurrency from helping to recycle the waste materials.

BREAKTHROUGH TECHNOLOGY
Which technologies help you realize your idea?

Blockchain Technology
Robotic Technologies

FINANCIAL IMPACT
How do you make sure your idea is financially sustainable?

Our business model aims to collaborate and make deals with governments and private companies which is the business model of recycling. So our financial income will increase as much as we collect recycling materials and collaborate with governments and private companies. Our financial income will be directly spent on the sustainability of our cryptocurrency and our company.
